I do not mean to assert that all country ministers are perfect. They are all imperfect. FARMERS AND THE HARD TIMES

The Tillers of the Soil Prosperous and Contented - Independent of Strikers. Farmers and Financial Distress - Always Sure of a Good Living. Correspondence Agents and Messengers.

A good deal of sympathy is being wasted over the farmer by people who don't know what they are talking about. The low price of wheat and the decline in the value of live stock are pointed out as reasons why the farmer is crying himself to sleep every night. As a matter of fact, the farmer who has his farm paid for is the most independent man on earth - independent of panics, of financial stringencies and of political experiments. He may not have a great deal of ready money, but he is as sure of a comfortable living as any man can be in this uncertain world.

There may, it is true, be a failure of some crops, but all the crops won't fail. His hogs may be decimated by cholera, but his sheep and cattle are left. Times may be dull, but if the worst comes to the worst he can live fairly well on the produce of his own farm. Clothes he must have but fashions don't change rapidly in the country, and a few bushels of potatoes or a few hogs will produce the money needed for the absolutely essential clothing.

The farmer is all right. He is not at the mercy of labor unions or capitalists. All the mills in the country may shut down and he is still certain of three meals a day and a bed at night. As he is the mainstay and foundation of all material prosperity, so he is independent of all the minor disturbances that trouble the people who are, after all, dependent on him for subsistence.

The farmers do not realize their favored condition as do the laborers in the cities who, under the best circumstances, have hovering over them the agonizing fear that they will be thrown out of work with nothing in reserve to fall back on. They envy the condition of the farmer, who, if he cannot always have luxuries, can depend upon having necessities of life. Trusts and rings may demoralize business, but no combinations of men can prevent the sun from pouring his riches upon the responsive earth.

The farmer can be sure of good, pure, wholesome food; his stock will not organize a strike against him, but will serve him faithfully in return for proper care and humane treatment. There must, too, be a constant demand for the farmer's products. People may do without fine furniture, books, pictures and fine clothing, but they are not exempt from the demands of the appetite. People must eat during the hardest times, and to the farmer all humanity must go. There may not be as much money in farming now as when times are prosperous, but the substantial comfort, the happiness, the inspiring influences of associations, with nature are no less than they ever were, and it is quite certain that the grumbling farmer would be a tenfold louder grumbler if he had to change places with some of those who try to eke out a living in the cities. THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York City will be at the Russell House, Middletown, on Tuesday, June 12th, one day only. The sick and afflicted may consult them without charge during their stay.

If you are incurable they will tell you; therefore in vain must not take offense if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The doctor will visit Middletown one day each month. Office hours from 10 a. m. to 6 p. m.

MONDAY, JUNE 4, 1904.

Dunn's Review reports 186 failures in the United States, last week, as against 222 for the corresponding week last year.

The Republican Legislature did a great deal to improve Democratic prospects in this State and if the Republican Constitutional Convention goes through its work without giving the Democrats some good campaign issues, the wisest politicians in the State will be sorely disappointed.

Despite the attempts to tax the oleomargarine business out of existence it continues to grow and prosper. There are now in force 555 wholesale and 4,300 retail dealers' licenses, issued by the Internal Revenue Bureau, and the tax of two cents a pound yields the government more than \$400,000 a year.

The mine owners of the Hocking Valley are arranging to import negro miners from the South to take the place of the strikers. The miners have about 4,000 Winchester rifles and threaten to shoot down the imported laborers, and there is little doubt that they will carry out their threat. The negroes are ignorant and do not know the danger that awaits them and it is an interesting question which one of the more cold blooded, the strikers who threaten to shoot or the miners who propose to furnish targets for their bullets.

The farming interests of the German empire are in such a depressed condition that a conference to devise measures for their relief was recently held. The grain growers are in the worst plight and although all sorts of plans were proposed, nothing practical was decided on, the members of the conference mostly agreeing that the opening and cultivation of new grain-growing regions has gone on until production is so far in excess of supply that low prices must prevail until a crop failure, in some country or countries, equalizes supply and demand.

It is rumored in Washington that the President will, this week, nominate Mr. Senator Charles F. McCallister, of Westchester county, to be Surveyor of the Port of New York. It is said that the nomination was decided on some time ago, but was held back because of the hostility shown by the New York Senators to the President's New York nominations. The prompt confirmation of Mr. Baldwin, as Naval Officer, and the withdrawal of opposition to the confirmation of General Doyle, as Collector of the Port of Buffalo, coupled with the nomination of Senator Murphy's friend as Postmaster at Troy, are regarded as signs that the relations between the President and New York's junior Senator are not so strained as they were, and it is believed that Mr. McCallister's nomination will be confirmed without much delay or serious opposition. Mr. McCallister, it will be remembered, spoke in this city during the campaign of '92 and made many warm friends during his visit here, who will be glad if his efforts in behalf of the Democratic party receive recognition and reward.

BOARD OF EXCISE.

Regular Meeting - Three Licenses Granted - Want a chance to be heard? The regular meeting of the Board of Excise was held, this morning, and the following additional licenses were granted:

Thomas Goodheart, 25 Prince street.

Michael Illia, 12 Cedar street.

John Morgan, 73 South street.

The petitioners of Jacob Wern, for a license in the neighborhood of Columbia Park, out of Catherine Street, at the corner of Lake and Walnut avenues, were rejected.

Det. Theo. Gordon, J. D., and Messrs. O. G. Lutz, J. D. Miller and H. H. Morgan presented a petition asking that the Board not grant a license to sell or give away in the building, at the corner of Union and East 100 streets, without paying them \$50. It was that they could present a \$100 license.

A Union soldier in an old trunk. In an old trunk of William W. O'Neil, at 100 Centre street, of Poughkeepsie, who died a few days ago, was found a box of \$1,000 worth of gold. The property goes to four sons and nephews, one of whom, Henry T. Adams, is a clerk in a Newburgh furniture store.

Mr. Chas. McGee, of Philadelphia, arrived in town, this morning, bringing with him three big trout, one of which was a fat lot. The fish were introduced as a present to Jacob Goodheart.

INVESTIGATING COMMITTEE'S REPORT
Evidence of Senators and Secretary Carlisle in regard to the sugar trust scandal - Secretary Carlisle's sweeping denial - No sugar trust money in the Democratic campaign fund.

By United Press

WASHINGTON, June 4 - The Senate, to-day, entered on the tenth week of its consideration of the tariff bill and the third day of its discussion of the sugar schedule. The first business done was the passage of a joint resolution appropriating \$50,000 for expenses of the inquiry and investigation ordered by the Senate.

Senator Gray laid before the Senate the official report of the testimony given by Senators McPherson, Harris, Jones, Mills, Yates and Voorhees, Secretary Carlisle and Representative Warner, a synopsis of which has already been published.

Senator McPherson said that, as far as he knew, there was no truth in any of the stories connecting Secretary Carlisle with the doings of the Sugar Trust. During the holiday season he transferred all his stocks and bonds to his son. In this transfer there were 500 shares of sugar. Subsequently his son purchased 500 shares and on February 2nd, a dispatch had been written to the Senator's broker to buy 500 shares more, but in view of the Senator's probable action on sugar, it was thought improper to send it. A servant found the dispatch on a table and sent it and the stock was bought, but was sold two days afterwards, as soon as the notice of its purchase was received. The Senator could not say whether the transaction yielded a profit or not. He was sure, however, that he could not be influenced in official action by his interests in sugar stock, and had never given his son any information as to the action of the Finance Committee on the sugar schedule. Did not speculate, but bought stock for investment.

Senator Mills said Secretary Carlisle's letter introducing Mr. Harman was a simple letter of introduction. Mr. Mills said that he proposed a duty on sugar, and Yates and Jones opposed.

Senator Jones testified that he asked Secretary Carlisle to draw up a schedule on sugar.

Secretary Carlisle confirmed Senator Jones's statement as to preparation of sugar schedule and denied most emphatically that he had ever said to any human being that the Sugar Trust or any one acting for it had made a contribution to the Democratic campaign committee and that the trust must be taken care of. He said further that he had learned that the Sugar Trust gave nothing to the Democratic campaign fund. The schedule, which he prepared was one changing from an ad valorem and specific duties to ad valorem rates. He also wrote the Hawaiian provision as it appears in the bill.

ADDITIONS TO CHURCH MEMBERSHIP

Communion Sunday in the City Churches.

At the First Congregational Church yesterday, there were seven additions to the membership, five by letter and two by profession of faith.

Eight persons were received by letter at the communion service in St. Paul's Church, yesterday morning.

Rev. Dr. Darwood was assisted in the communion service by Rev. John Cochran, who was ordained a local deacon at the last conference.

At the First Presbyterian Church, eight persons were received by letter.

At the Second Presbyterian Church two were received on profession of faith and five by letter.

At the Third Presbyterian Church.

Rev. J. D. Corby, of Troy, will preach in the interest of Universalism, at the Assembly Rooms, Tuesday, June 7, at 8 p. m. All are invited.

TWO MEN DOING ONE JOB.

How It Happened that the Job of Re-carving North Street Was Divided.
The re-carving of North street, begun by one blue stone man, is being finished by two. And this the wherefore of it.

The Mayor and Street Commissioner set Charles G. Royce at work on the job and when Richard G. Miller, who has had pull enough to get all this kind of work for several years, found that another was poaching in a preserve that he considered his own as long as the Republicans were in power, he asserted his pull with such effect that Alderman Mance, Chairman of the Street Committee, came tearing down town as fast as an electric car could carry him, and demanded to know in the name of all the street paving gods at once, who had dared give the job to Mr. Royce. He raised such a row that work was stopped for a time. At last a truce was patched up, by the terms of which the Mayor's man does the west side of the street and Mr. Mance's man the east side, and there is no longer danger that the Republican party will be rent in twain.

Recorder's Court.
A farm laborer, from the town of Goshen, paid three dollars for police protection while sleeping off the effects of a first class jag.

John Williams was found soliciting money from pedestrians, last night. He told a pitiful tale of a starving wife and three small children, but when arraigned before the Recorder said he was a single man. He was given ten days in Goshen to study up his matrimonial standing in the community.

Swarms of Locusts in New Jersey

Swarm of locusts have appeared in large numbers throughout the mountain section of Morris county, N. J. Many walks over which hang thick foliage are strewn with the pests, and the almost transparent shells out of which they come can be picked up at almost every turn. The locusts appear in greater numbers every day. It is difficult to walk on some of the thoroughfares without crushing the insects.

More Trains on the Susquehanna.

The Susquehanna and Western's summer time table which takes effect to-day, provides for two trains, each way, daily, between Jersey City and Wilkesbarre. The Deckertown Express, running down in the morning and returning in the evening, is also added, as are three new suburban trains between Hackensack and New York.

Opposed to a Contract for a Water Supply.

Citizens of Rosendale are moving to secure the abrogation of the contract recently made by the Board of Trustees of the village with the Rosendale Water Company. The contract is for ten years, at \$800 a year, for thirty-five hydrants, with the option to purchase the plant, after five years, for \$40,000.

DID YOU EVER TRY TO SAVE \$500

Or even half of it? It was a tough job, wasn't it? You often felt like using the money, didn't you? That was because you knew you had it in your pocket or the bank. Could you save up \$500 to buy a piano? Doubtful, but you wouldn't mind \$10 a month if you could pay it that way and get a first-class Piano from the start.

That is just what we are in business for. Although we sell Pianos and Organs for cash, and at prices that cannot be beaten in the world, we also sell the same instruments on credit terms, asking only a small per cent. for the accommodation. It's the best and easiest way that you can secure a Piano or Organ. The latter are only 65 per month.
